13th - 14th September 2019

Less is more... modern day minimal intervention, prevention and preservation

BADT NATIONAL CONFERENCE 2019

The Crowne Plaza, Liverpool
13th - 14th September 2019

Dear members and guests

After a very successful and well received 2018 conference held in Oxford, we hope to see many of our regular and new delegates attending our 4th boutique-style conference at the Crowne Plaza, Liverpool on Friday 13th & Saturday 14th September 2019.

As the role of the Dental Therapist continues to evolve and expand, it is important to consider the pathway of minimally invasive dentistry and how a dental therapist can consider the benefits and implications of patients looking for further extensive treatment.

'Less is More' is our focus for 2019 with an expert line up featuring Professor Callum Youngson on the destruction of traditional porcelain cosmetic intervention versus today's minimal intervention, Dr Ian Dunn will discuss minimally invasive periodontal treatment and Dr Linda Greenwall will explore tooth whitening, plus minimal invasive treatment for dental anomalies.

Other speakers include Dr Jane Lelean who will be looking at how we as clinicians are to look after ourselves, also further speakers and rotational hands-on work stations to be announced, so watch this space! We are grateful to our Industry sponsors who will be in attendance on Friday 13th September.

We look forward to seeing you in Liverpool for an exciting conference.

Deborah McGovern
BADT President

Booking information

Full conference package	Early bird rate (for bookings until 26th July)	Full rate	Presidential dinner
Newly qualified & students	£185	£220	£50
Member	£205	£260	£50
